your workload.

Overview

- What is Qualit-e?
- Advantages
- Qualit-e for you?
- A look into the web portal
- Next releases
- Our additional services for you
- Qualit-e Cloud GmbH

What is Qualit-e?

The web portal facilitates the distribution of quality documents like:

- BSE-, Allergen, GMO Statements, etc.
- Specifications
- MSDS
- Certifications
- Product information
- Marketing information

... of your raw materials and company to your customers.

Advantages

Save time

Save at least 10-20% of the time or your employee(s)

Customer notifications

Once you update or change documents, your customer is automatically notified

No installation

No installation needed from your or the customers side

Customers appreciate it

Customers and distributors welcome the possibility to have a fast and week-day independent access to your document

Huge savings

Huge cost savings compared to developing and maintaining an inhouse solution

No IT effort

No effort for your IT department

Authorise distributors

Authorise your distributors for access, who can then reshare your documents to their customers through Qualit-e

Compliance

1907 / 2006 REACH regulation

The 1907 / 2006 REACH suggests to **submit**, **make available** and **update** MSDS to customers.

Through Qualit-e Cloud, a producer can **submit** a direct link of the relevant MSDS electronically to the customer.

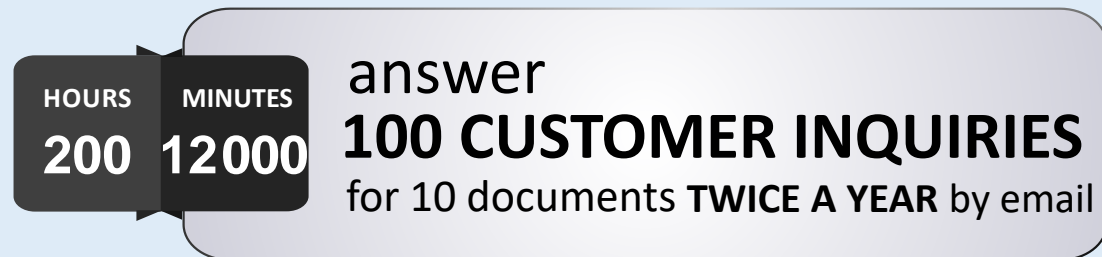

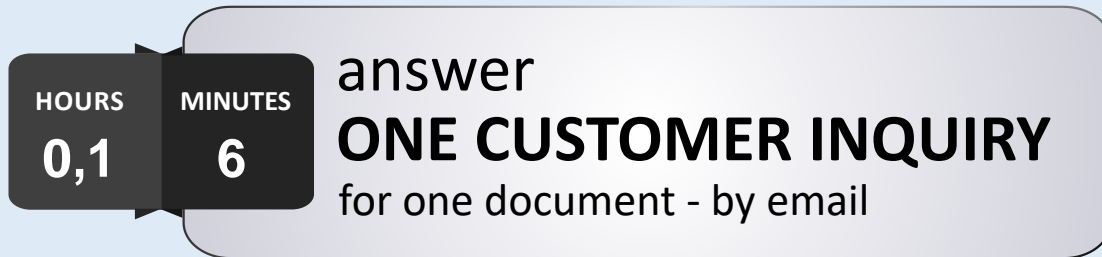

The document stays **available** to the customer 24/7.

Once the producer **updates** the MSDS, an automatic notification is sent to the customer with a direct link.

Imagine a portfolio of 10 products
with 50 documents each, sold to 100 customers

QUALIT-E

Save time

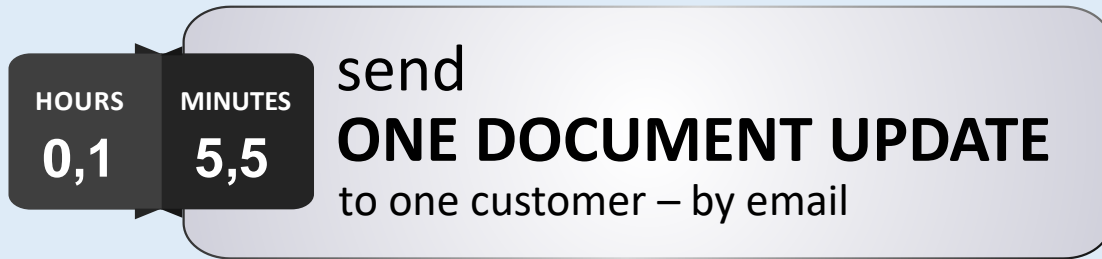

WITH QUALIT-E YOU SAVE **5 MINUTES**

WITH QUALIT-E YOU SAVE **~185 HOURS IN A YEAR**

Customer notifications –
send document updates to your customers

*assumption: combination of some documents and emails

QUALIT-E

Save time

WITH QUALIT-E YOU SAVE **4,5** MINUTES

WITH QUALIT-E YOU SAVE **~230**
HOURS IN A YEAR

Major functions

One time authorisation

Authorise your customer only once for access, save lots of emails

Automatic customer notification

Once you update or change documents, your customer is automatically notified

Document expiration notification

Receive an email when your documents expire

Upload and share CoA's

Upload your CoA by batch number, your customers can access it by the same

Upload customer info

Import your customers email address, easily select it to authorise your customer

Lead Generator

A new customer can request access to your product documents

Versioning system

Qualit-e shows you and your customer the difference between the old and new files

File and 'sharing information' recovery

Should you delete any documents by accident, they can be recovered including the associated sharing information

Reports

Generate reports about customer access frequency, downloaded documents

Qualit-e for you?

Qualit-e is tailormade
for raw material producers
in the following segments:

- Pharmaceutical
- Cosmetics
- Food
- Chemical
- etc.

Testimonials

“

With Qualit-e Cloud our company communication got much more efficient and our customers appreciate the direct access to our most up to date documentation.

Jiri Kratochvil,

”

“

Qualit-e helps us tremendously to keep our customers up to date and reduce the mail flood to and from our customers.

Philipp Tschopp
Ingredientpharm

”

“

Our supplier BioSynthis is providing their quality documents through Qualit-e Cloud. We as a distributor access the documents easily and receive a notification once there are any new files.

Ramin Saberi
SELLCARE GmbH

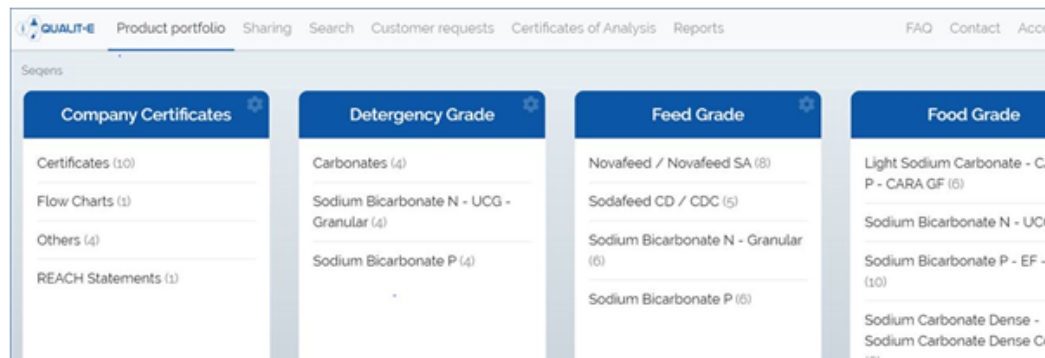

”

FACILITATING THE SHARING OF QUALITY DOCUMENTS

This new tool makes it possible to host data sheets, certificates and attestations and **to provide our customers with access to this documentation**. They are then free to search for what they are interested in at any time. When a certificate is updated (e.g. following a renewal), the customer is informed via an email notification. The customer has **a personalised access** to the platform depending on the products or range they are buying.

Accessible since December 2020, the launch of the Qualit-e platform enables Seqens to **facilitate access and sharing of quality documents** with its customers and distributors. Considerable time savings thanks to digitalisation.

Producer

SEQENS

Next releases

Release 7

- give the customer a possibility to ask for a document update for expired documents

Release 8

- Ask for samples: give the customer a possibility to ask for samples of your product

With your feedback we continue to add functions and give you an even better experience.

Pricing

We don't believe
in complicated price blocks,
modules or counting
user licences, therefore
we made it simple:

1. One yearly price for an unlimited number of users in your company
2. The price only depends on the number of products you wish to upload documents for.
3. For each product, you can upload an unlimited number of documents including marketing material or even explanatory movies if you wish
4. You can share the documents unlimited times with unlimited customers or distributors
5. You get access to all the features.
6. User support is included in the price
